End-of-term Reports capture Final Exam (if applicable) and Final Course Grades. In the Fall and Spring terms, students are guided through a self-reflection process, in which they write about their own progress to date. Additionally, students self-assess in four categories for each course: self-advocacy, perseverance, engagement and preparedness.

## Student Self-Reflection

Overall, I feel as if I learned a lot this year, both content-wise and about myself.

Online school helped me to reflect on my old study habit and

understand what was incorrect about those. I changed the way I study

and do assignments to a more efficient way, while still getting the results

I wanted. In addition, I am proud of myself that I was able to

complete and finish with an A, so far, programming 2 as that was a class

I was worried that I would not do well in. This has been an incredibly

crazy and different year and trimester, but I am very proud of myself

for pushing through and finishing.
